The MMW Program

Sioux Lookout
First Nations
Health Authority

Provides specialized clinical services and resources for adults with developmental disabilities. It also provides a unique opportunity for individuals, families, caregivers and professionals to share resources and information over significant geographic distances.

An assessment will be conducted with clients, which can occur at home, school, in a community setting and / or by video conference/telehealth.

Services Provided

- Intake – Service Coordination
- Psychological Assessment and Consultation
- Counseling
- Behaviour Therapy Assessment and Consultation
- Psychiatric Assessment and Consultation
- Educational Opportunity and Special Groups
