

A stylized illustration of a face wearing glasses, with a sun in the background, flowers, and insects. The face is composed of a pair of glasses with yellow lenses and a dark frame. The background is a light blue sky with a large yellow sun. There are green pine trees and various flowers (yellow and blue) around the face. In the foreground, there are two green turtles on a brown log, and several insects (bees and dragonflies) are flying around.

KO eHealth

Who We Are...

KO eHealth is a dedicated, Indigenous-led service provider, helping communities access virtual care services for over 20 years from virtual emergency services, eHealth essentials to enhanced eHealth such as community telemedicine carts and the travelling tele-opthamology program

Our Mission

KO eHealth is on a mission to provide holistic, culturally appropriate services for the First Nation communities that we serve and deliver a comprehensive and coordinated virtual care program.

Community Telemedicine Coordinators (CTC)

The Heart of KO eHealth

Our Services

Clinical Services

This includes managing scheduled consults and providing direct support for any urgent or emergent services. With our specialized team and virtual care services, we are dedicated to improving the overall well-being of all our clients.

Educational Services

The Virtual Care Educator offers training on the scheduling systems to support in-community staff, while our Informatics Educator provides weekly training for health professionals to ensure the highest quality care through virtual care services.

Technological Supports

We are proud to offer virtual care access to over 27 of Ontario's most remote First Nations with Virtual Care Technology to a total of 78 sites.

Clinical Cart

Each Clinical Cart has the following:

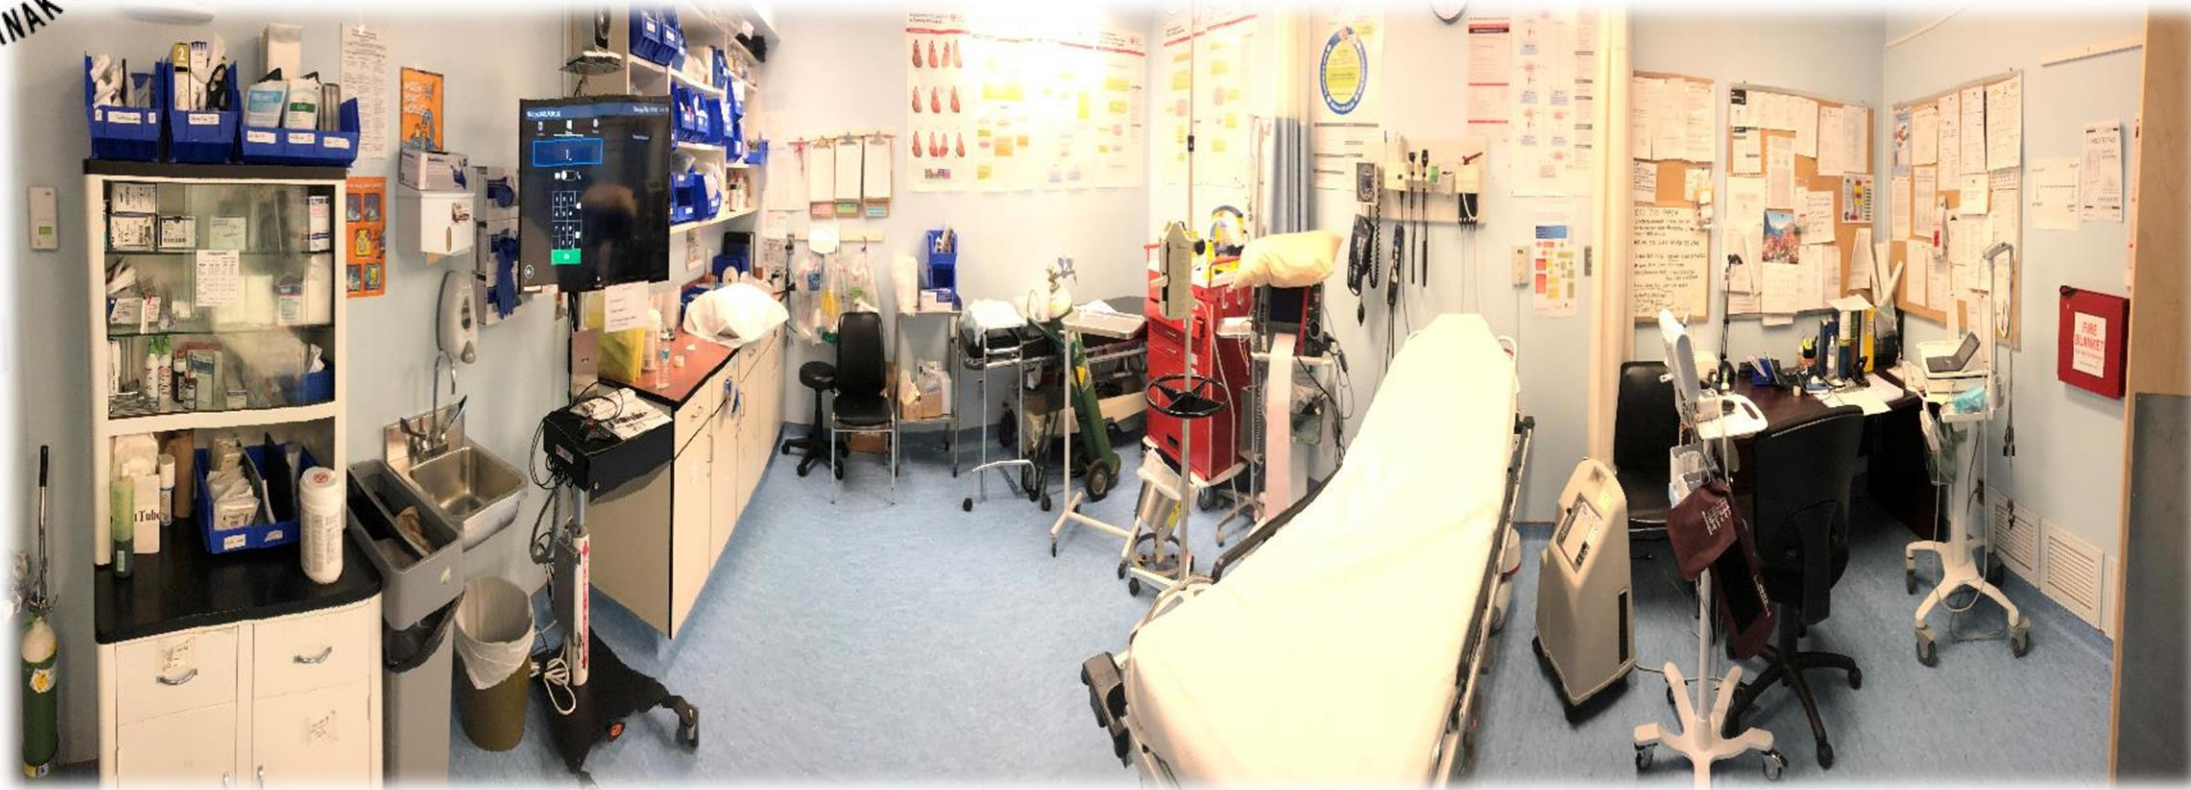

- Samsung TV monitor
- Polycom Real Presence Camera
- Polycom Series 310 Codec
- Rechargeable remote
- Polycom microphone
- Cisco Touch10

Virtual Emergency Support Services

“I’ve got eyes on the patient”

Managed Service Model (MSM)

Introductory virtual healthcare access for Indigenous communities throughout Ontario.

MSM works with each Indigenous Community individually to support their specific needs – it is not a one-size-fits-all network.

Easy email-to-email connection that is accessible anywhere with an internet connection.

User can access appointments from the comfort of their own home via smart, tablet, or computer.

Strategic Engagement for the Next Five Years of eHealth starting soon.
